

Contents

Preface

- 3** The Importance of Activating Embryonic Technology Development Today
H. ISHIKAWA

Papers

- 5** Silicon Single-Electron Devices and a Review of Nanodevice Research in the USA
D. K. FERRY
- 26** Room Temperature Silicon Single-Electron Transistor Memory and Switch, and Problems on the Way to Practical Use
S. Y. CHOU
- 29** SiC Crystal Growth and Characterization
E. JANZÉN
- 38** Epitaxial Growth of SiC by Sublimation Close Space Technique
S. NISHINO
- 44** Laboratories
(1) **Research Center for Interface Quantum Electronics (RCIQE)**
H. HASEGAWA
(2) **Center for Cooperative Research in Advanced Science & Technology in Nagoya University**
H. HAYAKAWA
