

## Contents

### Preface

- 3 Superconductor Electronics: The Last (But Not Yet Lost) Battle  
K. LIKHAREV

### Papers

- 5 Novel Fabrication Technologies for Terabit-Scale Electronics  
Evelyn L. HU

### Special Issue: **Superconducting Electron Devices Project**(Fiscal 1988-1997)

- 12 I. Introduction of Superconducting Electron Devices Project in Japan

- 14 II. Results of Research and Development for Superconducting Electron Devices Project

- 14 1. Development of Superconducting Devices Basic Technologies

- 18 2. Development of Superconducting Devices Technologies

- 34 3. Development of Josephson Device Hybrid System Technologies

- 47 III. Impacts and Future Prospects of High temperature Superconducting Devices

- 48 **Laboratories : Research Center for Quantum Effect Electronics, Tokyo Institute of Technology**

Exploring for Ultrahigh Performance Electron Devices Based on Quantum Effects  
S. ODA
